Independent Auditor's Report

Board of Directors
Barker-Cypress Municipal Utility District
Harris County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Barker-Cypress Municipal Utility District (the District), as of and for the year ended March 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of March 31, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis

March 31, 2018

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and other information required by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Barker-Cypress Municipal Utility District
Management's Discussion and Analysis (Continued)
March 31, 2018

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Barker-Cypress Municipal Utility District
Management's Discussion and Analysis (Continued)
March 31, 2018

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	2018	2017
Current and other assets	\$ 6,660,883	\$ 6,274,318
Capital assets	12,638,645	12,704,512
Total assets	19,299,528	18,978,830
Deferred outflows of resources	703,221	755,978
Total assets and deferred outflows of resources	\$ 20,002,749	\$ 19,734,808
Long-term liabilities	\$ 16,847,340	\$ 17,706,230
Other liabilities	418,715	826,705
Total liabilities	17,266,055	18,532,935
Net position:		
Net investment in capital assets	(3,389,394)	(3,864,414)
Restricted	1,396,832	1,248,308
Unrestricted	4,729,256	3,817,979
Total net position	\$ 2,736,694	\$ 1,201,873

The total net position of the District increased by \$1,534,821. The majority of the increase in net position is related to tax revenues intended to pay principal on the District's bonded indebtedness, which is shown as long-term liabilities in the government-wide financial statements. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Summary of Changes in Net Position

	<u>2018</u>	<u>2017</u>
Revenues:		
Property taxes	\$ 2,795,840	\$ 2,660,678
Charges for services	2,161,667	2,131,503
Other revenues	<u>239,740</u>	<u>133,651</u>
Total revenues	<u>5,197,247</u>	<u>4,925,832</u>
Expenses:		
Services	2,505,781	2,605,420
Depreciation	485,329	401,339
Debt service	<u>671,316</u>	<u>636,450</u>
Total expenses	<u>3,662,426</u>	<u>3,643,209</u>
Change in net position	1,534,821	1,282,623
Net position, beginning of year	<u>1,201,873</u>	<u>(80,750)</u>
Net position, end of year	<u>\$ 2,736,694</u>	<u>\$ 1,201,873</u>

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended March 31, 2018, were \$6,094,848, an increase of \$735,005 from the prior year.

The general fund's fund balance increased by \$885,286. This increase was primarily due to property taxes and service revenues exceeding service operation and capital outlay expenditures.

The debt service fund's fund balance increased by \$114,809 primarily due to property tax revenues generated being greater than bond principal and interest requirements.

The capital projects fund's fund balance decreased by \$265,090 due to capital outlay expenditures incurred for the District's share of the sanitary sewer rehabilitation project and other various projects.

Barker-Cypress Municipal Utility District
Management's Discussion and Analysis (Continued)
March 31, 2018

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to property tax revenues, professional fees and capital outlay expenditures being greater than anticipated, and regional water fee revenues, purchased services and repairs and maintenance expenditures being less than anticipated. The fund balance as of March 31, 2018, was expected to be \$4,404,494 and the actual end-of-year fund balance was \$4,676,948.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

Capital Assets (Net of Accumulated Depreciation)

	2018	2017
Land and improvements	\$ 2,004,578	\$ 1,910,312
Construction in progress	23,823	1,973,129
Water facilities	3,714,524	3,823,652
Wastewater facilities	6,895,720	4,997,419
Total capital assets	\$ 12,638,645	\$ 12,704,512

During the current year, additions to capital assets were as follows:

Construction in progress related to wastewater treatment plant improvements, Phase 4 and the improvements at water plant No.'s 2 and 3	\$ 23,823
Lakes of Pine Forest drainage swale regrade, Phase II	56,360
Sanitary sewer rehabilitation	48,534
Lakes of Pine Forest rehabilitation of lift station	101,156
Replacement of splitter box	5,750
Wastewater treatment plant conveyor replacement	52,638
Wastewater treatment plant non-potable water system expansion	55,887
Queenston Blvd and Coventry Park water line relocation	75,314
Total additions to capital assets	\$ 419,462

Barker-Cypress Municipal Utility District
Management's Discussion and Analysis (Continued)
March 31, 2018

Debt

The changes in the debt position of the District during the fiscal year ended March 31, 2018, are summarized as follows.

Long-term debt payable, beginning of year	\$ 17,706,230
Decreases in long-term debt	<u>(858,890)</u>
Long-term debt payable, end of year	<u>\$ 16,847,340</u>

At March 31, 2018, the District had \$30,000,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District.

The District's bonds carry an underlying rating of "A-." The Series 2007 and 2009 bonds carry a "AA" rating by virtue of bond insurance issued by Assured Guaranty Corp. The Series 2010 and 2012 refunding bonds carry a "AA" rating by virtue of bond insurance issued by Assured Guaranty Municipal Corp. The Series 2014 and Series 2015 refunding bonds carry a "AA" rating by virtue of bond insurance issued by Build America Mutual Assurance Company.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City for full purposes without the District's consent, except as set forth below.

Strategic Partnership Agreement

In 2011, the District entered into a Strategic Partnership Agreement (the Agreement) with the City, which annexed certain portions of the District into the City for "limited purposes," as described therein. Under the terms of the Agreement, the City has agreed it will not annex the District as a whole for full purposes for 30 years following the date of the Agreement, at which time the City has the option to annex the District if it chooses to do so.

Barker-Cypress Municipal Utility District

Notes to Financial Statements

March 31, 2018

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Barker-Cypress Municipal Utility District (the District) was created by an order of the Texas Water Rights Commission, now known as the Texas Commission on Environmental Quality (the Commission), effective February 20, 1974, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater and drainage facilities and to provide such facilities and services to the customers of the District.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

The District is a participant in two regional wastewater treatment plants, as further described in Note 8. The facilities are governed by the Board of Directors of Jackrabbit Road Public Utility District (Jackrabbit) and Langham Creek Utility District (Langham), respectively. The respective Boards of Directors of those districts have the responsibility of approving budgets, setting rates and determining the day-to-day operations. The District retains an ongoing financial interest and responsibility. The District's operating transactions with the facilities are reported in the general fund. Further financial information for the facilities may be obtained from Schwartz, Page & Harding, L.L.P., 1300 Post Oak Boulevard, Suite 1400, Houston, Texas 77056.

Government-wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of

Barker-Cypress Municipal Utility District

Notes to Financial Statements

March 31, 2018

financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances – Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Barker-Cypress Municipal Utility District

Notes to Financial Statements

March 31, 2018

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, mutual funds, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Barker-Cypress Municipal Utility District

Notes to Financial Statements

March 31, 2018

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Revenues recognized during the fiscal year ended March 31, 2018, include collections during the current period or within 60 days of year-end related to the 2017 and prior years' tax levies.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended March 31, 2018, the 2017 tax levy is considered earned during the current fiscal year. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Deferred Amount on Debt Refundings

In the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt in a debt refunding is deferred and amortized to interest expense using the effective interest rate method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Such amounts are classified as deferred outflows or inflows of resources.

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because of the following items.

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 12,638,645
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund financial statements.	128,614
Deferred amount on debt refundings for governmental activities are not financial resources and are not reported in the funds.	703,221
Penalty and interest on delinquent taxes is not receivable in the current period and is not reported in the funds.	18,706
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	<u>(16,847,340)</u>
Adjustment to fund balances to arrive at net position.	<u><u>\$ (3,358,154)</u></u>

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balances in the governmental funds statement of revenues, expenditures and changes in fund balances because:

Change in fund balances.	\$ 735,005
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation and noncapitalized costs exceeded capital outlay expenditures in the current year.	(65,867)
Governmental funds report principal payments on debt as expenditures. For the statement of activities, these transactions do not have any effect on net position.	820,000
Revenues that do not provide current financial resources are not reported as revenues for the funds, but are reported as revenues in the statement of activities.	59,550
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(13,867)</u>
Change in net position of governmental activities.	<u><u>\$ 1,534,821</u></u>

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Note 2: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At March 31, 2018, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in Texas CLASS, an external investment pool that is not registered with the Securities and Exchange Commission. A Board of Trustees, elected by the participants, has oversight of Texas CLASS. The District's investments may be redeemed at any time. Texas CLASS attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques and limits its investment in any issuer to the top two ratings issued by nationally recognized statistical rating organizations.

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

At March 31, 2018, the District has the following investments and maturities:

Type	Fair Value	Maturities in Years			
		Less Than 1	1-5	6-10	More Than 10
Texas CLASS	\$ 1,885,229	\$ 1,885,229	\$ 0	\$ 0	\$ 0

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At March 31, 2018, the District's investments in Texas CLASS were rated "AAAm" by Standard & Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet at March 31, 2018, as follows:

Carrying value:	
Deposits	\$ 4,352,315
Investments	1,885,229
Total	<u>\$ 6,237,544</u>

Included in the following statement of net position captions:

Cash	\$ 1,312,315
Certificates of deposit	3,040,000
Short-term investments	1,885,229
Total	<u>\$ 6,237,544</u>

Investment Income

Investment income of \$41,554 for the year ended March 31, 2018, consisted of interest income.

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Fair Value Measurements

The District has the following recurring fair value measurements as of March 31, 2018:

- Pooled investments of \$1,885,229 are valued at fair value per share of the pool's underlying portfolio.

Note 3: Capital Assets

A summary of changes in capital assets for the year ended March 31, 2018, is presented below.

Governmental Activities	Balances, Beginning of Year	Additions	Reclassifi- cations	Balances, End of Year
Capital assets, non-depreciable:				
Land and improvements	\$ 1,910,312	\$ 94,266	\$ -	\$ 2,004,578
Construction in progress	1,973,129	23,823	(1,973,129)	23,823
Total capital assets, non-depreciable	<u>3,883,441</u>	<u>118,089</u>	<u>(1,973,129)</u>	<u>2,028,401</u>
Capital assets, depreciable:

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

	Series 2014	Refunding Series 2015
Amounts outstanding, March 31, 2018	\$2,580,000	\$8,455,000
Interest rates	3.30% to 3.75%	2.00% to 4.00%
Maturity dates, serially beginning/ending	April 1, 2025/2035	April 1, 2019/2030
Interest payment dates	October 1/ April 1	October 1/ April 1
Callable dates*	April 1, 2022	April 1, 2023

*Or any date thereafter; callable at par plus accrued interest to the date of redemption.

During a prior fiscal year, the District defeased part of its Series 2009 bonds by creating a separate irrevocable trust fund. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust fund. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, removed from the District's long-term liabilities. As of March 31, 2018, the amount of defeased debt outstanding but removed from long-term liabilities is \$1,895,000.

Annual Debt Service Requirements

The District has been paying the amount due April 1 within the fiscal year preceding this due date, and the following schedule has been prepared assuming that this practice will be followed in future years. The schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds outstanding at March 31, 2018.

Year	Principal	Interest	Total
2019	\$ 950,000	\$ 627,771	\$ 1,577,771
2020	980,000	597,053	1,577,053
2021	1,020,000	563,940	1,583,940
2022	1,055,000	533,115	1,588,115
2023	1,095,000	495,240	1,590,240
2024-2028	6,060,000	1,797,640	7,857,640
2029-2033	4,235,000	588,620	4,823,620
2034-2035	1,000,000	55,625	1,055,625
Total	<u>\$ 16,395,000</u>	<u>\$ 5,259,004</u>	<u>\$ 21,654,004</u>

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

The bonds are payable from the proceeds of an ad valorem tax levied upon all property within the District subject to taxation, without limitation as to rate or amount.

Bonds voted	\$ 59,885,000
Bonds sold	29,885,000
Refunding bonds voted	32,477,340
Refunding bonds sold and applied against voted authorization	2,862,340

Note 5: Significant Bond Order and Commission Requirements

The Bond Orders require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended March 31, 2018, the District levied an ad valorem debt service tax at the rate of \$0.4800 per \$100 of assessed valuation, which resulted in a tax levy of \$1,592,706 on the taxable valuation of \$331,814,953 for the 2017 tax year. The interest and principal requirements to be paid from the tax revenues are \$1,460,471 of which \$1,146,586 has been paid and \$313,885 is due October 1, 2018. The District will utilize available resources to satisfy the requirements.

Note 6: Maintenance Taxes

At an election held November 4, 2014, voters authorized a maintenance tax not to exceed \$0.75 per \$100 valuation on all property within the District subject to taxation. During the year ended March 31, 2018, the District levied an ad valorem maintenance tax at the rate of \$0.3600 per \$100 of assessed valuation, which resulted in a tax levy of \$1,194,530 on the taxable valuation of \$331,814,953 for the 2017 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

Note 7: Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the Authority), which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of March 31, 2018, the Authority was billing the District \$2.70 per 1,000 gallons of water pumped from its wells and \$3.10 per 1,000 gallons of surface water received. These amounts are subject to future increases.

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Note 8: Contracts With Other Districts

Regional Wastewater Treatment Facilities

The District entered into an agreement on April 11, 1978 (last amended November 13, 2007), with Jackrabbit for construction and operational cost sharing of wastewater treatment facilities located within Jackrabbit, whereby Jackrabbit agreed to provide, or cause to be provided, wastewater treatment and disposal services for the District and other participating districts. Jackrabbit has oversight responsibilities and holds title for the benefit of the participating districts. Construction costs were shared based on a pro rata share of capacity acquired. The District has contributed approximately \$980,000 for its ownership of 1,115,000 gallons-per-day (gpd) capacity or 21.86 percent of the facilities' 5,100,000 gpd capacity.

Jackrabbit operates the regional facilities. Operational cost sharing is based on each district's ownership of capacity in the facility. The District's share of operational costs for the year was \$236,408. The District has contributed \$62,044 to Jackrabbit as its share of an operating reserve.

The following is condensed audited financial information of the joint facilities as of and for the year ended July 31, 2017.

	Plant General Fund
Total assets	\$ 427,991
Total liabilities	\$ 132,975
Total fund balance	295,016
Total liabilities and fund balance	\$ 427,991
Total revenues	\$ 1,794,666
Total expenditures	1,794,666
Excess revenues	\$ 0

As a result of Hurricane Harvey, Jackrabbit experienced heavy flooding and sustained material damage at its facilities, including the regional waste treatment plant, and estimates damages incurred to be approximately \$1,500,000. Jackrabbit has filed an insurance claim with their insurance provider and a claim with the Federal Emergency Management Agency (FEMA) and has received \$750,000 from their insurance company with invoices still being reviewed under the claim.

Barker-Cypress Municipal Utility District
Notes to Financial Statements
March 31, 2018

Joint Wastewater Treatment Facilities

On July 19, 1982, the District entered into a 40-year contract with Langham for the expansion and operation of a wastewater treatment plant owned by Langham. Construction costs of the plant expansion were shared based on pro rata shares of capacity acquired. The District paid approximately \$825,000 for its ownership of 650,000 gpd capacity.

The agreement was amended June 12, 1986, to redefine operational cost sharing. Subsequent to the amendment, the cost of power, insurance, laboratory testing, permit fees, bookkeeping, auditing and extraordinary repairs are shared based on ownership capacity. All other costs are shared based on plant usage. The District's share of operational costs for the year was \$36,550. The District has contributed \$28,326 to Langham as its share of operating reserve.

On October 8, 1997, the districts entered into a second amendment, pursuant to which the District sold Langham 12,000 gpd.

On December 11, 2001, the districts entered into a third amendment, which provides that the District will sell Langham 332,000 gpd for \$830,000. The sale occurred during a prior year and the District's current share of fixed operating costs is 15.3 percent.

Note 9: Strategic Partnership Agreement

In 2011, the District and the City of Houston (the City) entered into a Strategic Partnership Agreement (the Agreement) under which the City annexed a tract of land (the tract) within the boundaries of the District for limited purposes. The District continues to exercise all powers and functions of a municipal utility district as provided by law. As consideration for the District providing services as detailed in the Agreement, the City agrees to remit one-half of all City sales and use tax revenues generated within the boundaries of the tract. As consideration for the sales tax payments by the City, the District agrees to continue to provide and develop water, sewer and drainage services within the District in lieu of full-purpose annexation. The City agrees it will not annex the District for full purposes or commence any action to annex the District during the term of the Agreement, which is 30 years. During the current year, the District recorded \$9,690 in revenues related to the Agreement.

Note 10: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Barker-Cypress Municipal Utility District
Notes to Required Supplementary Information
March 31, 2018

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during fiscal 2018.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule – General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

Barker-Cypress Municipal Utility District

Schedule of Services and Rates

Year Ended March 31, 2018

1. Services provided by the District:

<input checked="" type="checkbox"/> Retail Water	<input type="checkbox"/> Wholesale Water	<input checked="" type="checkbox"/> Drainage
<input checked="" type="checkbox"/> Retail Wastewater	<input type="checkbox"/> Wholesale Wastewater	<input type="checkbox"/> Irrigation
<input type="checkbox"/> Parks/Recreation	<input type="checkbox"/> Fire Protection	<input checked="" type="checkbox"/> Security
<input checked="" type="checkbox"/> Solid Waste/Garbage	<input type="checkbox"/> Flood Control	<input type="checkbox"/> Roads
<input checked="" type="checkbox"/> Participates in joint venture, regional system and/or wastewater service (other than emergency interconnect)		
<input type="checkbox"/> Other _____		

2. Retail service providers

a. Retail rates for a 5/8" meter (or equivalent):

	<u>Minimum Charge</u>	<u>Minimum Usage</u>	<u>Flat Rate Y/N</u>	<u>Rate Per 1,000 Gallons Over Minimum</u>	<u>Usage Levels</u>
Water:	\$ 6.00	3,000	N	\$ 1.45	3,001 to 7,000
				\$ 2.10	7,001 to 20,000
				\$ 2.25	20,001 to No limit
Wastewater:	\$ 25.00 *	0	Y		
Regional water fee:	\$ 3.41	1	N	\$ 3.41	1 to No Limit
Does the District employ winter averaging for wastewater usage?					Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Total charges per 10,000 gallons usage (including fees):				Water \$ 52.20	Wastewater \$ 25.00

b. Water and wastewater retail connections:

<u>Meter Size</u>	<u>Total Connections</u>	<u>Active Connections</u>	<u>ESFC Factor</u>	<u>Active ESFC**</u>
Unmetered	-	-	x1.0	-
≤ 3/4"	2,094	2,084	x1.0	2,084
1"	12	12	x2.5	30
1 1/2"	2	2	x5.0	10
2"	30	30	x8.0	240
3"	3	3	x15.0	45
4"	5	5	x25.0	125
6"	1	1	x50.0	50
8"	2	2	x80.0	160
10"	-	-	x115.0	-
Total water	2,149	2,139		2,744
Total wastewater	2,116	2,108	x1.0	2,108

3. Total water consumption (in thousands) during the fiscal year:

Gallons pumped into the system:	249,381
Gallons billed to customers:	238,604
Water accountability ratio (gallons billed/gallons pumped):	95.68%

*Residents of Pine Forest Green, Pine Forest Landing, Brookhollow Crossing and Brookhollow Court are charged \$42.55, which includes solid waste disposal. Solid waste disposal is not currently provided by the District within its other subdivisions but is rather provided through the respective homeowner's associations.

**"ESFC" means equivalent single-family connections
